

## **B-SMART RETAIL SOLUTIONS** **X The Part B Experts**

### **Medicare Part B Respiratory Retail Partnership**

#### **WHAT IS IT?**

Our Medicare Part B Respiratory Retail Program is a mail order program designed to relieve retail pharmacies from the burden of high costs and low reimbursements associated with Part B respiratory medications. ALL Medicare Part B beneficiaries qualify for the B-SMART Program

#### **HOW DOES IT WORK?**

Retail pharmacies are paid a professional service fee leaving them with no risk of loss and no transaction costs. The Medicare Part B Program helps stores meet the needs of these chronically ill patients while eliminating the high inventory cost and cumbersome billing process associated with these low margin drugs.

And, the billing process is easy! ABC Plus will simply print an internal invoice and pay accrued professional fees to your pharmacy once monthly for all Medicare Part B beneficiaries transferred by your pharmacy and receiving medications through ABC Plus.

#### **ADVANTAGES and BENEFITS**

- Eliminate high costs associated with these low margin drugs.
- Eliminate Medicare documentation collection for these highly audited drugs.
- Your store is paid a professional service fee for transferring Part B Respiratory medication requests—no risk!
- INCREASE BRAND AWARENESS—at every touch point, our Patient Care Team brands you, reminding your customer that YOU are their pharmacy provider!
